

DESIGN CONCEPT

The perfect fusion of bionics and ergonomics

The design is inspired by the flowing and graceful sensation of a manta ray gliding through the water. Its massive pectoral fins, like a flowing cloak, suspend, turn, and glide effortlessly in the water—graceful and full of beauty. This fluid form is transformed into the rhythm of the chair design.

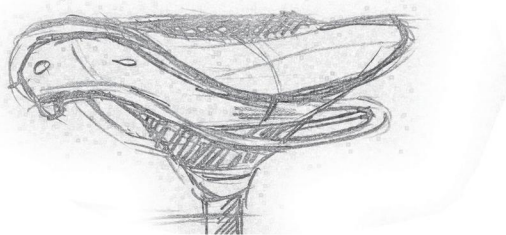

Bionics:

seating surface-Triple symmetrical wing-type layout
Handle-360° wing-shaped rotating handle

Ergonomics:

Sitting comfort--Incorporate the horseback riding sitting experience

FLUID FORM
BIONIC BEAUTY

I — AM — MONTA RAY

FLUID FORM BIONIC BEAUTY

THE DESIGN IS INSPIRED BY THE FLOWING AND GRACEFUL SENSATION OF A MANTA RAY GLIDING THROUGH THE WATER. ITS MASSIVE PECTORAL FINS, LIKE A FLOWING CLOAK, SUSPEND, TURN, AND GLIDE EFFORTLESSLY IN THE WATER — GRACEFUL AND FULL OF BEAUTY. THIS FLUID FORM IS TRANSFORMED INTO THE RHYTHM OF THE CHAIR DESIGN.

EXCELLENT PERFORMANCE

Triple symmetrical wing-type seating surface

The seating surface features a wing-type layout design, arranged in a three-way symmetrical form. It incorporates a horseback riding sitting experience, allowing for a natural and relaxed posture even during prolonged sitting.

360° wing-shaped rotating handle

"Wing-shaped handle" features a design similar to the wing motion of the seating surface, while allowing 360° smooth height adjustment. It embodies both aesthetic design and functionality.

QQ chair base

The chair legs are designed in a round and bouncy shape enhancing the overall consistency of the chair's appearance while also being stain-resistant and easy to clean.
